

Tree Lafayette thankful for ongoing support

During this time of the year when all of the leaves have fallen from the trees, and many are covered with snow and ice, it's easy to forget how much effort goes into planting them—and keeping them looking good. So at this time of the year, it's especially important to thank all of our supporters in the community for their continued interest and financial support, which enables us to do what we do.

As a not-for-profit organization, every dollar donated is important, but those organizations that donated more than \$1,000 went above and beyond the call of duty: Alcoa Foundation, Lafayette Life Insurance Foundation, the Tipmont REMC EnviroWatts Board, Heritage Interactive Services, the Community Foundation of Greater Lafayette, Duke Energy Foundation, the Wabash River Enhancement Corp. and Tate and Lyle South.

We thank all of our individual supporters and the many volunteers who help Tree Lafayette, especially this year with watering over the summer during the drought. We can't forget to thank the City of Lafayette for its consistent support of our organization and our events.

Our heartfelt thank you to everyone, and all the best wishes for a healthy and green 2013 .
